

# WINGRA MARINA

Lake Wingra Marina offers a perfect summer home for your personal watercraft over the summer. Keeping your boat on beautiful Lake Wingra means that you can eliminate the hassle of transportation and storage and can be on the water in less than 5 minutes. We offer storage for canoes kayaks, rowboats, sailboats, and rowing shells. We also provide indoor storage for sails, PFD's, paddles and personal items. Our helpful staff are also available to help. We are available to help you if you need assistance launching your boat; or if you are taking your boat off lake for a paddle trip, we can help you load your boat on to your car.

Some additional services that we provide are custom spots (carpeted and sized to fit your boat). We also provide restoration and can wax your boat to keep your boat in prime condition. We also offer a limited number of outdoor storage for paddles for those early rises (outdoor storage is included in rowing shell storage price). We enjoy providing a safe and convenient home for your boat and are always looking for ways we can make your experience on the water enjoyable.
